

COVID-19 Detailed School Health and Safety Operational Plan

Administrators must complete and submit the following sections of the COVID-19 Detailed School Health and Safety Operational Plan to their area superintendent by August 7th. A draft of the completed template should be shared with school councils and the local Yukon First Nation by August 5rd for feedback. We know these are very tight time-lines and we will support you in this work. Please consult with your superintendent.

Approved operational plans should be made available for parents and education partners by August 12th. Schools should maintain a copy of the operational plan onsite at all times. A Yukon Workers' Compensation Health and Safety Board Safety Officer may review it at any time your school is in operation.

1. Supporting Social-Emotional Wellness and Trauma Informed Learning

Supporting Social-Emotional Wellness and Trauma Informed Learning	<i>The document "Five Steps to Guide the Social Emotional Wellness of Staff and Student's Return to School: Regulate-Reason-Relate, contains suggestions of how to support student and staff wellness. From this document (and other resources/ideas you may have) indicate how you will support staff and student wellness:</i>
For staff	The first day is a PD day to go over safety protocols and expectations. Staff will review PBIS and co-constructing class expectations with students. Staff will be given opportunities to check in at staff meetings and discuss COVID concerns. Staff will be reminded of Yukon Education Supports and family assistance program. Staff will take part in a trauma informed approach to school presentation from Student Support Services at the earliest convenience. Returning staff have previously taken part in this professional development. This document will evolve as new guidelines or best practices change to support the wellbeing of students and staff.
For students	We will have a school counsellor available for students. We will support students transition back to school focusing on developmentally appropriate information. We will support student growth and development, remaining flexible as needs arise. We will use student friendly language when explaining school guidelines to ensure consistency of messaging. This document will evolve as new guidelines or best practices change to support the wellbeing of students and staff.

2. Physical distancing

Measures used to maintain physical distancing	Applicable Information from "Health and safety guidelines for K-12 school settings"	Detailed implementation actions and/or program change
Between staff	The current limits on social gatherings <u>do not apply to school settings and school-related activities</u> . There can be any number of students and staff in a school setting at any given time if they are not all in one area and can keep a safe distance of 2 metres	<p><i>Provide Details on:</i></p> <ul style="list-style-type: none"> • <i>Maximum # of staff in staff-room capacity</i> • <i>Detail how you will conduct staff meetings</i> • <i>Provide schedule and maximum capacity of teacher work area</i> • <i>What steps will be taken to ensure safety at in-person meetings</i>

COVID-19 Detailed School Operational Plan

	<p>from each. Physical distancing by and among staff is <u>strongly recommended</u>.</p>	<p>The staff-room capacity will be a maximum of 6 staff members. The workroom capacity will be a maximum of 6 staff members. Staff meetings will be conducted in person and online using digital platforms. When in person staff meetings occur, we will use larger spaces to facilitate physical distancing such as the gym, library and field. Staff will clean hands before attending in person meetings. from each other. This document will evolve as new guidelines or best practices change to support the wellbeing of students and staff.</p>
<p>Between staff and students</p>	<p>Physical distancing will not always be possible, particularly with younger students and students with special needs. Measures should be appropriate for a student’s developmental stage and ensure optimal academic, social and emotional learning.</p> <p>When physical distancing cannot be maintained, focus should be placed on minimizing physical contact and emphasizing other measures such as hand hygiene, enhanced cleaning and disinfection and staying home when sick.</p> <p>Physical distancing between staff and students is <u>strongly recommended</u>. Staff should maintain a 2m distance from students and use a mask when that distance cannot be maintained.</p>	<p><i>Provide details on:</i></p> <ul style="list-style-type: none"> • <i>Building physical distancing into all staff student interactions, inside or outside the school</i> • <i>Develop use of visual cues to establish safe boundaries for teacher-student interactions.</i> • <i>Provide map of school traffic “flow” and specifics about entering and exiting</i> • <i>School specific ways of limiting the number of adults working per class</i> • <i>Provide details on how students with physical, health or social-emotional needs will be supported (see also Section 5).</i> <p>First PD day will be used for health and safety orientation and to go over best practices for physical distancing with students. We will be trying to keep class sizes to a maximum size of 15 students per class. PPE will be available for staff working in closer proximity to students. This document will evolve as new guidelines or best practices change to support the wellbeing of students and staff. Reusable masks have been provided to staff and</p>

		<p>students. Students have a reusable mask that stays at school. This document will evolve as new guidelines or best practices change to support the wellbeing of students and staff.</p>
<p>Between students</p>	<ul style="list-style-type: none"> • Students from the same household do not need to maintain physical distance from each other. • Organize classrooms into smaller groups and/or spread students out to minimize direct physical contact. <ul style="list-style-type: none"> ◦ Consider modifying classroom configurations (e.g. separating tables, placing student desks in a row) and locations (e.g. gymnasiums, cafeterias, and outdoors) that allow greater distance between students and staff. • Groups of students should stay together throughout the day and not mix with other groups. <ul style="list-style-type: none"> ◦ Staff should remain with the same group whenever possible and limit the number of student groups they interact with throughout the day. • Manage flow of people in common areas especially smaller areas such as hallways. • Consider staggering pick-up and drop-off times, recess, lunch 	<p><i>Provide details, if applicable, on:</i></p> <ul style="list-style-type: none"> • <i>Changing configuration and placement of desks to maximize physical distancing</i> • <i>Repurposing larger spaces like gyms, libraries or multi-purpose spaces for classes.</i> • <i>Marking distances for reference between desks/tables</i> • <i>Plans developed for safe hallway movement and minimized congestion by staggering transition times (floor maps welcome)</i> • <i>Ways your school has maximized space</i> • <i>Ways your school will minimize mixing of groups</i> • <i>Provide staggered recess schedule</i> • <i>Plan for assemblies and other school-wide events virtually</i> <p>Student desks, tables and or work stations will be arranged to support physical distancing. School assemblies will be done in multiple sections or a larger outdoor space will be used to support whole school assemblies. Classes will eat their lunch as a group instead of coming together as a school. Lunch and recess will have a staggered schedule to minimize mixing in the halls and on recess/ lunch. Northern Tutchone language will take place in student classrooms or outside instead of</p>

	<p>and class transitions to support physical distancing.</p> <ul style="list-style-type: none"> ● Close greetings such as hugs and handshakes should be avoided. Instead, encourage non-physical gestures such as "air fives", waves or nods. ● Students should be regularly reminded to keep their hands to themselves. ● Help young students learn about physical distancing and less physical contact by creating games that promote safe spacing and include basic principles such as "two arm lengths apart". ● Incorporate more individual activities or activities that encourage more space between students and staff. ● Adapt group activities to minimize physical contact and reduce shared items, when feasible and reasonable. ● Close physical contact may be necessary (e.g. to comfort an upset student). <ul style="list-style-type: none"> ○ Hand washing and personal practices will help mitigate the risk associated with physical contact. <p>Recess/playgrounds</p> <ul style="list-style-type: none"> ● The risk of COVID-19 transmission is lower in outdoor settings than it is indoors, as a result outdoor recess and breaks are encouraged. ● Whenever possible, schools should stagger recess and 	<p>multiple classes coming to the language room. K4 drop off will be adjust to the doors by the kindergarten class. We will have signage to indicate traffic direction. Upon entering school for the day students will report directly to their classroom. After all transitions students and staff are expected to wash their hands. Breakfast program will be delivered to classes instead of students picking it up in a common area. We will follow the Chief Medical Officer of Health recommendation on distancing between students. This document will evolve as new guidelines or best practices change to support the wellbeing of students and staff.</p>
--	---	---

COVID-19 Detailed School Operational Plan

	<p>breaks to reduce mixing between groups.</p> <ul style="list-style-type: none"> • Students and staff members should practice hand hygiene before and after any recess or break period. <ul style="list-style-type: none"> o Students should wash their hands after using playground equipment 	
<p>Teaching materials, toys and manipulatives</p>	<ul style="list-style-type: none"> • If developmentally appropriate, remove toys that encourage group play in close proximity or increase the likelihood of physical contact. Keep toys that decrease the likelihood of physical contact. • Avoid sharing toys/objects between students as much as possible or if they do share, clean and disinfect after each use. • Objects and materials brought from home by students should be cleaned with soap and water or disinfectant before use in the classroom. • There is no evidence that textbooks, paper and other paper-based products transmit the COVID-19 virus. Books and paper-based educational resources can be distributed or shared with students. 	<p><i>When considering developmental appropriateness and suitability for sanitizing, what toys and manipulatives will remain/be removed?</i></p> <p>Sandbox toys will be removed as a playground option. We will encourage soccer, bocce ball and other games at recess that support physical distancing. Kindergarten stations will remain as they are to support the development of our youngest students. Student will be encouraged to purchase their own supply of pencils, markers, scissors and glue to reduce sharing. This document will evolve as new guidelines or best practices change to support the wellbeing of students and staff.</p>

3. School cleaning and disinfecting procedures

Please note that we began a process for tracking and coordinating cleaning practices in the spring. Custodians are using checklists and log sheets to ensure all spaces are cleaned. Custodians will:

- use log sheets for disinfecting areas during the school day including bathrooms, common areas, and high touch surfaces such as water fountains and handrails
- use log sheets to document that the overnight cleaning and disinfecting is completed

COVID 19 METHOD OF CLEANING GENERAL GUIDELINES

- Color coding of buckets for different areas to avoid cross contamination
- Color coding of cloth/rags used for classrooms and washrooms to avoid cross contamination
- EP 50 Dilution Ratio: Cleaning 1:38, Disinfecting 1:12
- CAVICIDE: Disinfecting; use as is, no mixing ratio
- Air dry when applying aerosol, wipes, and sprayer to surface for effective results.

Day – Custodian:

- Sweeping floor with damp mop/bucket. Use multi surface solution cleaner for rinsing the mop head (no dry mopping/ or sweeping, as this can distribute virus droplets into the air), when feasible to do so, floor scrubber shall be used to clean floors with recommended cleaning solution.
- Cleaning high traffic areas with multi-surface cleaner or EP50: wipe down surfaces that has an obvious dirt/impurities with a damp rug and cleaning solution.
- Spraying of disinfectant in all high traffic contact areas, students contact areas, occupant contact areas after first break. Disinfectant must air dry for most effective results.
- Spraying of disinfectant at toilet rims, toilet seats, faucets, flush levers, and at wall mounted sanitary napkin disposal bin after lunch. Surfaces must be cleaned if there are any form of impurities in all types of surfaces prior to disinfecting.
- Washing washroom floors and change room floors with disinfectant after lunch

Day – Teachers/School Staff:

- Hand held sprayer and Aerosol:
 - Wipe down surfaces with damp rag or damp paper towel to remove soil/obvious impurities prior to spraying disinfectant.
 - Spray disinfectant to surfaces

- Allow to air dry for most effective results.
- Wipes:
 - Directly wipe surface area and air dry for most effective results.

Night – Custodian:

- Shift shall start at 3:30 PM to minimize contact from school occupants and to observe social distancing
- Wiping down or removing dirt, soils, and other impurities on all desk and tables, all students contact areas; toys, books, etc., and occupant contact areas with damp cloth/rags using EP50 or degreaser or multi surface cleaner (following proper dilution for cleaning) to be completed prior to spraying with EP50 or Cavicide (following proper dilution for disinfecting) or any product recommended by Health Canada. Product will be dependent on supply availability.
- Vacuuming floor
- Washing classroom floors with multi-surface cleaner or disinfectant.
- Washing washroom floors/change room floors with disinfectant solution in a mop bucket. Weekly pressure washing with disinfectant in all surface area of the washrooms and change rooms including walls.
- Washing gym floors with floor scrubber with multi surface cleaner solution

NEED Procedure of how this will be tracked/monitored by custodians to ensure work is done

4. Hand hygiene, respiratory etiquette and Covid-19 instruction

Please refer to the following websites for information on accessing posters and signs:

[COVID-19 posters for offices and workplaces](#)

[YG Printing Services for COVID-19 signage](#)

For information on acquiring floor decals and arrows contact Anne Daub at Anne.Daub@gov.yk.ca or by phone at 667-5931. Student focused Elementary and Secondary posters for handwashing a safe practice will be sent to schools.

<p>Applicable Information from "Health and safety guidelines for K-12 school settings"</p>	<p>Detailed implementation actions and/or program change</p>
<ul style="list-style-type: none"> • Thorough hand washing with plain soap and water for at least 20 seconds is most effective at reducing the spread of illness and least likely to cause harm if accidentally ingested. Antibacterial soap is not needed for COVID-19. • Soap and water must be used when hands are visibly dirty. • Alcohol based hand rub can be used if hands are visibly clean. <ul style="list-style-type: none"> ◦ Technical grade ethanol should not be used as it is not approved by Health Canada for use with children or pregnant women. • Portable, refillable bottles can be used, however only identical contents may be refilled into the bottles/containers. <ul style="list-style-type: none"> ◦ Perform diligent hand hygiene and clean/disinfect bottles before refiling. • Alcohol based hand rub should be made available at school entrances and exits, entry points to classrooms and other high traffic areas. • Alcohol based hand rub should be safely stored out of the reach of young students. • Students and young children in particular should be supervised when using alcohol based hand rub to prevent misuse. • Staff and students should be provided with age-appropriate education in proper hand hygiene and respiratory etiquette. Posters or signage should be placed around the school. Examples include: <ul style="list-style-type: none"> ◦ https://www.canada.ca/en/public-health/services/publications/diseas 	<ul style="list-style-type: none"> • <i>Describe details for posting signs and floor markings. Attaching a floor map with these details will suffice and can be included on "foot traffic flow" map.</i> • <i>Developmentally appropriate instruction on Covid-19 has been developed. This instruction must be provided to students in the first two days of school. Indicate who will be responsible for delivering this instruction</i> <p>We will have a community nurse visit each class and do handwashing demonstrations in August. We will have an activity on how germs can spread without symptoms to teach students why hygiene matters with COVID-19. There will be signage at all sinks on washing hands. Signs will be on the doors to state do not enter if you are sick or displaying symptoms. All individuals entering the building will be requested to wash/ sanitize hands upon entry. Hand sanitizer will be available at the entrances. Students will be provided a lesson on COVID-19 for the first day of class. Arrows and foot prints will be put on the floor for marking walking on the right of the halls. All staff, students and visitors are required to wear a mask in common school areas. Masks can be removed in the classroom where appropriate distancing can be maintained. This document will evolve as new guidelines or best practices change to support the wellbeing of students and staff.</p>

<p>es-conditions/reduce-spread-covid-19-wash-your-hands.html</p> <ul style="list-style-type: none">o https://yukon.ca/sites/yukon.ca/files/hss/hss-imgs/hss_sign-handwashing_2020.pdf <ul style="list-style-type: none">• Students and staff are required to perform hand hygiene when entering and exiting the school as well as before entering the classroom. Additional hand hygiene practices should be performed at the following times indicated in Appendix 2.• Students and staff should cough and sneeze into their elbow, sleeve or a tissue.<ul style="list-style-type: none">o Used tissues should be throw away and hand hygiene performed immediately.o Lined, no-touch wastebaskets (foot pedal-operated, hand sensor, open basket) should be used, where possible.• Staff and students should have the supplies they need to conduct appropriate hand hygiene and respiratory etiquette.<ul style="list-style-type: none">o Hand washing supplies should be well stocked at all times, including soap, paper towels and alcohol based hand rub (sanitizer).	
--	--

COVID-19 Detailed School Operational Plan

Hand washing stations	Location
Staff	Each classroom will use their own sink with the exception of the Grade 3/4/5 room, which will use the new kitchen sinks. Hand washing is available in all bathrooms and staff room.
Students	Each classroom will use their own sink with the exception of the Grade 3/4/5 room, which will use the new kitchen sinks. Hand washing is available in all bathrooms.
Hand sanitizer stations	Location
Staff	Main entrance, kindergarten entrance, high school entrance, gym entrance, library entrance and main office entrance.
Students	Main entrance, kindergarten entrance, high school entrance, gym entrance, library entrance and main office entrance.
Public	Main entrance and kindergarten entrance.

Applicable Information from "Health and safety guidelines for K-12 school settings"	Detailed implementation actions and/or program change
Meals and food handling <ul style="list-style-type: none"> Students and staff should observe proper hand hygiene before and after eating. 	<i>Provide details, if applicable:</i> <ul style="list-style-type: none"> Does your school have a nutrition program? Will your school be taking lunch in the classroom more often? Indicate plan for distribution of food (nutrition programs/cafeterias) Plan for physical distancing (2m) in cafeteria or when picking up food Messages/signs about no food sharing/buffets or potlucks

<ul style="list-style-type: none">● Physical distancing should be maintained while students are eating.● Where possible students should take their lunch in their classroom.● Schools should have a "no food and drink sharing" policy.<ul style="list-style-type: none">○ Food from home should be stored with the students' belongings and must not be shared with others. <p>School cafeterias</p> <ul style="list-style-type: none">● Students should keep a distance of two metres between each other as much as possible. Promote physical distancing by:<ul style="list-style-type: none">○ Reducing the number of students dining together at one time.○ Removing/rearranging dining tables.	<p>We will have a nutrition program providing breakfast and lunch. Staff are provided by SFN who will be aware of this plan and follow school guidelines including handwashing and physical distancing. Meals will be delivered to classrooms. Carts will be sanitized before each group is served. Any changes to the plan will be communicated with SFN's Education director and staff. Students will eat lunch and breakfast in their classroom. Water fountains will be turned off and students will use their own water bottles, which will be filled in their classrooms. This document will evolve as new guidelines or best practices change to support the wellbeing of students and staff.</p>
--	--

- o Placing tape or other markings on the cafeteria floors.
- o Staggering meal service times to reduce the number of students present at any one time.
- o Adapt other areas to serve as additional dining space to increase spacing among students in the same room.
- All staff who are handling food must practise diligent hand hygiene and a food safety certificate is recommended.
- Do not use buffets. Food should be served in individual portions or food items individually wrapped using single-use food grade packaging.
- Cutlery, napkins and other items should be provided to students, rather than allowing them to pick up their own items.

Water fountains

<ul style="list-style-type: none"> • Consider having students fill water bottles rather than having them drink directly from the mouthpiece of a water fountain. <ul style="list-style-type: none"> ○ Non-touch or automatic water filling stations are ideal. 	
---	--

5. Personal Protective Equipment

Applicable Information from "Health and safety guidelines for K-12 school settings"	Item	Detailed implementation actions and/or program change
	Location of Sick-Kit	Provide details of location of sick-kit, ensure appropriate supplies are available (hand sanitizer, disposable gloves/masks) for use by the symptomatic individual and supervisor Office sick room, former counsellor room in the main office.
	Location of sick area	Describe where this is located/mark on floor map This is located in the main office in the former counsellor room.

<p>Personal protective equipment (PPE) is not recommended in school settings, beyond what is normally used by staff as a regular precaution for hazards encountered in the workplace.</p> <p>Teachers and other staff may choose to wear a non-medical mask; however, this is a personal choice.</p> <ul style="list-style-type: none"> • Wearing a non-medical mask is not an appropriate substitute for physical distancing or other control measures in a school setting. • If worn, masks should be changed when visibly soiled, damp or damaged. • If masks are worn or disposed of incorrectly, risk of infection can increase. • For additional information refer to Wearing a non-medical mask in Yukon. <p>Masks are not recommended for use by children unless advised to do so by a health care provider.</p> <ul style="list-style-type: none"> • In young children in particular, masks can be irritating and may 	<p>Which staff will require PPE due to job duties?</p>	<p>Some staff may be required to perform some duties that require PPE. Identify who those staff are and describe why they anticipate needing PPE. Ensure you have supplies ordered and only available for those staff who require it. Describe the anticipated PPE needs including the total amount of masks and gloves needed.</p> <p>The education assistants, school counsellor, LAT, reading recovery teacher and principal when working one on one in close proximity, where physical distancing is not possible due to academic and social needs. We anticipate needing 1800 sets of masks and gloves for the duration of the school year to cover just these needs. If the situation changes and we are consuming more this number will increase. We also anticipate needing to maintain a stock for students and staff who become ill while at work. This will add an additional 200, making our total needs to be an estimated 2000 sets of PPE. We are providing the bus driver disposable masks for anyone boarding the bus who does not have a mas. This document will evolve as new guidelines or best practices change to support the wellbeing of students and staff.</p>
---	---	--

<p>lead to increased touching of the face and eyes.</p> <p>Specific situations may require the use of PPE:</p> <ul style="list-style-type: none"> • A PPE kit should be available in case a student or staff becomes ill while at school (see appendix 1 for more information) <ul style="list-style-type: none"> ◦ The kit should contain alcohol-based hand rub, disposable gloves and masks, for use by the ill ◦ Individual and staff member attending to them. • Custodial and teaching staff should follow routine processes when cleaning blood or body fluids. <ul style="list-style-type: none"> ◦ High level disinfection is required e.g., 1:9 dilution or 5000ppm ◦ Staff must wear disposable gloves and wash hands before wearing and after removing gloves. 		
--	--	--

COVID-19 Detailed School Operational Plan

<ul style="list-style-type: none"> • Staff members whose regular job duties mean physical distancing is not possible. <ul style="list-style-type: none"> ◦ For example, when assisting students with activities of daily living. 		
---	--	--

6. Programming and Activity Guidelines

Program Area	Applicable Information from "Health and safety guidelines for K-12 school settings"	Detailed implementation actions and/or program change
Arts, Music, Drama Considerations	<ul style="list-style-type: none"> • <i>Singing and playing woodwind and brass instruments must not occur at this time, as these activities increase the risk of spreading the virus due to aerosolized respiratory fluids.</i> 	<p><i>Details of your plan to mitigate risks associated with this program area</i></p> <p>We are following the guidelines for singing and music from the Chief Medical Officer of Health. Music programming will focus on string and percussion instruments. We will limit the sharing of art supplies.</p>
Physical Education	<ul style="list-style-type: none"> • <i>The risk of COVID-19 transmission is lower in outdoor settings than it is indoors. Wherever possible physical education classes should be held outside.</i> • <i>Physical education classes should follow the contact sports and sport and recreation guidelines.</i> 	<p><i>Details of your plan to mitigate risks associated with this program area</i></p> <p>We will hold PE classes outdoors when possible. We will try to limit the number of participants at a time to 15 students, grouped by class. We will work to reduce</p>

COVID-19 Detailed School Operational Plan

		the close contact of student by adjusting PE delivery.
Cooking Classes	<ul style="list-style-type: none"> • All students and staff should sanitize their hands prior to cooking and meal preparation. • Kitchen workspaces should be reconfigured to ensure 2 metres physical distancing can be maintained. • Where possible, staff members should eliminate the sharing of cooking equipment and instruments. • Classroom surfaces, workstations, equipment, utensils and containers must be cleaned and disinfected between each class/use. See <i>Cleaning and disinfection</i> section for more information. 	<p><i>Details of your plan to mitigate risks associated with this program area</i></p> <p>Kitchen area will not be shared with lunch programming. The number of students will try to be limited to 15, grouped by class. Kitchen will be cleaned between groups and all handwashing protocols will be followed.</p>
Outdoor Education	<ul style="list-style-type: none"> • The risk of COVID-19 transmission is lower in outdoor settings than it is indoors; as a result, outdoor education and on the land programming is encouraged. • When physical distancing is not possible (e.g. sitting on a bus), students should be assigned a partner or seat that does not change for the duration of the trip. • Schools should develop a plan if a student becomes symptomatic before or on an excursion or field trip. • Field trips within Yukon and Canada are permitted if public health guidelines are followed. Guidance is based on the current epidemiology of 	<p><i>Details of your plan to mitigate risks associated with this program area</i></p> <p>Classes will be encouraged to go outside. Students traveling by bus will sit with household members when possible, and students will have an assigned seat. Individual field trip planning will reflect COVID-19 protocols, outlined on field trip forms. This document will evolve as new guidelines or best practices change to support the wellbeing of students and staff.</p>

COVID-19 Detailed School Operational Plan

	<p>COVID-19 and will be re-evaluated at the beginning of the school year.</p> <ul style="list-style-type: none"> o Outdoor overnight trips are permitted if students sleep in their own tent or are partnered with a family member. o Hotel stays are permitted, with no more than two students per room. <ul style="list-style-type: none"> • International field trips are not currently permitted. 	
<p>Libraries</p>	<ul style="list-style-type: none"> • There is no evidence that the COVID-19 virus is transmitted via textbooks, paper or other paper-based products. There is no need to limit the distribution or sharing of books or paper based educational resources to students. • Sign in logs should be maintained for members of the public accessing community libraries housed in schools. <ul style="list-style-type: none"> o Members of the public should be self-screening prior to entering a library housed in a school. Signs may be in place at the library entrance to remind the public to not enter if they are sick. 	<p><i>Details of your plan to mitigate risks associated with this program area</i></p> <p>Public library hours will not coincide with school hours. There will be a log book for library users and classes will be expected to log their use of the library. This document will evolve as new guidelines or best practices change to support the wellbeing of students and staff.</p>
<p>Computer labs and Instructional Tech</p>	<ul style="list-style-type: none"> • Computer workstations should be reconfigured to ensure 2 metres physical distancing between each workstation. • Students should conduct proper hand hygiene before and after using shared IT equipment. • Where possible, IT equipment should be cleaned between each use using 	<p><i>Details of your plan to mitigate risks associated with this program area</i></p> <p>EVB does not have a computer lab. Digital devices will need to be cleaned before each use. This document will evolve as new guidelines or best practices change</p>

COVID-19 Detailed School Operational Plan

	<p>disinfectant wipes containing 70% alcohol.</p> <ul style="list-style-type: none"> o To facilitate cleaning, consider using covers that protect keyboards and other high touch areas on electronic devices. <ul style="list-style-type: none"> • Refer to the Yukon guidelines on cleaning and disinfecting in the work place. 	<p>to support the wellbeing of students and staff.</p>
<p>Extra-curricular programming</p>	<p><i>Guidelines are being finalized and will be sent shortly...</i></p>	<p><i>Guidelines on extra-curricular programs are being developed...</i></p> <p>We are following the guidance of the Chief Medical Officer of health in regards to after school sports and activities. We will develop protocols based on the guidelines of similar sports/ activities for an activity that does not have guidelines.</p>

CONFIDENTIAL

7. Itinerant staff, guest and public access

Applicable Information from "Health and safety guidelines for K-12 school settings"	Relevant issue or group	Detailed implementation actions and/or program change
<ul style="list-style-type: none"> • Educational specialists and consultants are permitted to enter the school if public health guidance is followed and movement within the building is limited as much as possible. • All visitors, including educational specialists and consultants, must report to the front office upon entering the school. <ul style="list-style-type: none"> ○ Anyone who is ill or experiencing symptoms will not be permitted further entry. ○ A record of all visitors should be kept for a minimum of thirty days. • All visitors should be reminded to practice diligent hand hygiene and maintain physical distance upon entering a school building. 	Sign in procedure	<p><i>Your school's sign in location and procedures</i></p> <p>Guest log book outside the office with signage.</p>
	Space for itinerant staff	<p><i>Provide details of location of itinerant staff work space</i></p> <p>Alternate workrooms will be designated for visitor usage.</p>
	Visitor entrance/exit	<p><i>We encourage limiting parent access to school except for programs that require parents/caregivers to be present.</i></p> <p><i>Indicate parent/caregiver waiting areas</i></p> <p><i>Procedure for those parents/ caregivers permitted to be present in classes (like Learning Together/Kindergarten)</i></p> <p>Visitor entrances are the main entrance and kindergarten entrance. This document will evolve as new guidelines or best practices change to support the wellbeing of students, staff and visitors.</p>
	Parents	<ul style="list-style-type: none"> • <i>Procedures for parents to support early learning programs like Learning Together and Kindergarten (most direct access/access to these classrooms only).</i> • <i>Directions/signs for all other parents - minimize access to classrooms/designated waiting area</i> <p>Parents of students in kindergarten 4 and Learning together program will use the kindergarten entrance. Other</p>

COVID-19 Detailed School Operational Plan

<ul style="list-style-type: none"> • Visitors should use designated entrance and exit doors and limit their movement within the school as much as possible 		<p>parents should use the main entrance, following appropriate protocols. This document will evolve as new guidelines or best practices change to support the wellbeing of students, staff and visitors.</p>
<ul style="list-style-type: none"> • Stagger the timings of pick-up and drop-off if possible. <ul style="list-style-type: none"> ◦ If there are multiple entrances, pick-up and drop off can be split at separate entrances to avoid parents gathering in large numbers. 	<p>Drop-off/pick-up schedules</p>	<p><i>Indicate your school's plans for staggering drop-off and pick-up</i></p> <p>Kindergarten 4 and Learning Together program will use the kindergarten entrance. We will not have staggered drop offs or pickups, as most students use the only school bus. This document will evolve as new guidelines or best practices change to support the wellbeing of students and staff.</p>

8. After school use and Joint Use Agreement users

Applicable Information from "Health and safety guidelines for K-12 school settings"	Item	Detailed implementation actions and/or program change
<ul style="list-style-type: none"> Public access for after school use should be permitted provided user groups follow the general guidelines contained in this document. These requirements should be communicated through an updated user group agreement. As much as possible user group access and movement throughout the school should be restricted. For example, adapting entrance and exit protocols, locking hallway doors, providing floor markings as appropriate. 	JUA and community use August - mid September	<i>Details on JUA will provided early next week (Aug 4 or 5)</i> Will update upon receipt of guidelines.
	User group washrooms	<i>Identify community use/user group washrooms</i> Gym user groups will use the washrooms attached to the gym. School doors will be locked to prevent access to the school. User groups will be responsible for cleaning bathrooms after use. Library user group will have access to the library and the rotunda washroom. The library must close by 8pm to facilitate cleaning. All user groups must maintain an accurate log of participants. This document will evolve as new guidelines or best practices change to support the wellbeing of students and staff.
	User group restrictions	<i>Identify areas that are restricted access in your school</i> Classrooms and hallways. This document will evolve as new guidelines or best practices change to support the wellbeing of students and staff.

COVID-19 Detailed School Operational Plan

<ul style="list-style-type: none"> • Cleaning and disinfection should take place between each user group. <ul style="list-style-type: none"> ◦ To reduce the custodial burden consider having user groups use school's facilities less frequently for a longer period of time. • User groups must have access to designated washrooms within the school. • Groups renting school spaces are responsible for maintaining sign in logs should the need for contact tracing arise.

9. When someone becomes sick at school

Applicable Information from "Health and safety guidelines for K-12 school settings"	Item	Detailed implementation actions and/or program change
--	-------------	--

COVID-19 Detailed School Operational Plan

See Appendix 1	Staff and student instruction on what to do if one becomes sick at school	<i>Indicate the date of when and who will ensure that staff and students are informed about what to do if they become sick at school. Provide all staff with information in Appendix 1.</i> Staff will be informed on August 18th, 2020. Students will be informed on August 19th, 2020.
	Staff training	<i>Describe how staff will be trained for responding to symptomatic students and donning and doffing PPE. For the latest information on wearing non-medical masks please check refer to this website.</i> Staff will be informed of initial guidelines prior to the commencement of school. This will evolve as new guidelines or best practices change to support the wellbeing of students and staff.

10. Monitoring absenteeism

Applicable Information from "Health and safety guidelines for K-12 school settings"	Item	Detailed implementation actions and/or program change
Reporting significant communicable diseases and high absenteeism rates is a responsibility of the Department of Education (as stated in the Agreement between Health and Social Services and Education, September 1st, 2010). Schools are requested to report absenteeism that is higher than expected (i.e. >5-10% above baseline), as determined by the school and that is thought to be due to a communicable disease. The existing reporting process	Monitoring and reporting absenteeism	<i>Indicate your plans for monitoring and reporting absenteeism. How will you monitor extended absences? How will you screen students returning after a prolonged absence?</i> Staff will follow up with students after 3 consecutive absences. Office will follow up after a week absence. Weekly attendance reports will be run. Students returning after a prolonged absence will need to check in upon arrival and have a parent or guardian to contact the office. Each case will be handled on an individual basis. Any staff or students exhibiting symptoms will be expected to isolate and return home as soon as possible.

<p>and "Yukon School Surveillance Reporting Tool" should be completed. In addition to increased absenteeism, this form may also be used to report a suspect or confirmed communicable disease of significance within a school setting, regardless of absenteeism.</p> <p>Schools should monitor student absenteeism for extended absences as this may indicate that a student has COVID-19. Students returning from prolonged absences should be flagged for screening by administration upon their return and asked if they have any COVID-19 symptoms before returning to class.</p>		
--	--	--

11. Communication

Two communication documents will be provided for you on Wednesday, August 5th to help you with communicating your school-specific plans to parents and our partners. These must be sent out by August 12 to parents, School Council, First Nation, and partners.

1. Cover letter for parents
2. School routines, schedules and programs for 2020-21.

12. Appendices

Appendix 1

What to do if a student or staff gets sick?

These protocols should be shared with school administrators, staff members, parents, guardians and students to provide clear expectations for what happens when a staff member or students gets sick.

Staying home when sick

Parents and caregivers should assess their children for symptoms before sending them to school. All students and staff should stay home if they:

- have any symptoms of common cold, influenza, COVID-19 or other infectious respiratory disease, OR
- travelled outside of British Columbia, Northwest Territories or Nunavut in the last 14 days, OR
- had close contact with someone diagnosed with COVID-19 and have been directed to self-isolate by Yukon Communicable Disease Control.

Parents and caregivers should keep their children at home if they are displaying symptoms. To help assess symptoms, parents can use the [COVID-19 self-assessment tool](#) or contact a health care provider for additional guidance.

Students can return to school when they are symptom free or if a health care provider has cleared them to return to school.

Staff should assess themselves daily for symptoms. Staff should stay home if they are experiencing symptoms until a health care provider has cleared them to return to school.

What should students and staff members do if they are diagnosed with COVID-19?

Students and staff members that have been diagnosed with COVID-19 should self isolate at home and follow the instructions of public health officials. After self-isolation is completed and on the advice of public health officials, students and staff members can return to school.

What should you do when student or staff member shows symptoms of COVID-19 at school?

Responding quickly and calmly if a staff member or student develops symptoms of COVID-19 at school has the potential to reduce the transmission of the virus to other staff and students.

If a student develops symptoms of Covid-19

Staff must take the following steps:

1. Immediately separate the symptomatic student from others in a designated, supervised area.
2. Contact the student's parent or caregiver to pick them up as soon as possible.
3. Where possible, maintain a distance of 2 metres from the ill student. If not possible, staff may wear a mask if available, or use a tissue to cover their nose and mouth.
4. Provide the student with a mask or tissues to cover their coughs or sneezes. Throw away used masks and tissues as soon as possible and perform hand hygiene.
5. Avoid touching the student's body fluids (e.g., mucous, saliva). If you do, thoroughly wash your hands with soap and water or disinfect with alcohol based hand rub.
6. Once the student is picked up, wash your hands with soap and water or disinfect with alcohol based hand rub.
7. Staff responsible for facility cleaning must clean and disinfect the space where the student was separated and any areas used by them.
8. All items the student touched/used while isolated must be cleaned and disinfected as soon as the student has been picked up.

If a staff member develops symptoms of Covid-19

Staff should go home as soon as possible. If unable to leave immediately:

1. Symptomatic staff should separate themselves into an area away from others.
2. Maintain a distance of 2 metres from others.
3. Use a tissue or mask to cover their nose and mouth while they leave the school or wait to be picked up.
4. Staff responsible for facility cleaning must clean and disinfect the space where the staff member was separated and any areas used by them.
5. If concerned, staff should be encouraged to use the [COVID-19 self-assessment tool](#) or contact a family physician or nurse practitioner.

School administration is responsible for supplying the masks and cleaning materials necessary for safely responding to symptomatic students and staff members.

What should students and staff members do if they are diagnosed with COVID-19?

Should a COVID-19 positive person be identified significant efforts will be undertaken to determine if they are part of a cluster of cases or part of a local outbreak. Specific public health measures are implemented in facilities where an outbreak occurs to prevent further transmission of COVID-19 and keep others safe in a school or workplace.

Schools **should not** notify students, parents, caregivers and staff if someone is diagnosed with COVID-19. Information about any potential or confirmed cases should be treated as confidential. All necessary notifications will be done by Yukon Communicable Disease Control in conjunction with the Department of Education.

CONFIDENTIAL

Appendix 2

When to wash hands

When students should wash their hands	When staff should wash their hands
<ul style="list-style-type: none"> • Before and after any transitions within the school setting (e.g. to another classroom, indoor-outdoor transitions) • Whenever hands are visibly dirty • After using the washroom • Before eating and drinking • After sneezing or coughing into hands • After playing outside 	<ul style="list-style-type: none"> • Before and after any transitions within the school setting (e.g. to another classroom, indoor-outdoor transitions) • Whenever hands are visibly dirty • After using the washroom • Before eating and drinking • After sneezing or coughing into hands • Before handling food or assisting students with eating • After contact with body fluids (i.e., runny noses, spit, vomit, blood) • After cleaning tasks • After removing gloves • After handling garbage
