Starting the 2020-21 school year

After an unusual end to last school year, we are very excited to welcome students and school staff back into our classrooms. We know this school year will be different, but we have an opportunity to work together, to be creative and set a positive example for our students of how we can be resilient when presented with challenges.

The health and safety of students and school staff is our first priority. Our school is adapting our operations and programming to meet the [health and safety guidelines for K-12 school settings](#) set by Yukon's Chief Medical Officer of Health.

The health and safety guidelines indicate that:

- Keeping students out of school has negative impacts on their mental health
- Outbreaks involving children and youth are unusual and tend to only occur in areas where there are high levels of community spread
- There is no conclusive evidence that shows children who are symptomatic pose a risk to other children or adults
- Children and youth are not the primary drivers of COVID-19 spread in schools or community settings
- Proper health and safety measures still need to be in place to reduce risk

Staff at our school will be regularly reviewing the health and safety measures at our school with students to ensure safe and healthy habits.

Read more below about how we are adapting our school routines this school year.

Health and safety routines for the 2020-21 school year

Contacting the school

Contact us at 867-537-3231- school phone, 867-332-5570-school cell, or Joshua.Korten@gov.yk.ca if you have questions about how we are ensuring the health and safety for students and staff this school year.

Staying home when sick

Students and staff must stay home if they are sick or showing symptoms. Parents should monitor their child every day for symptoms before sending them to school.

Parents should consider if they are new or worsening symptoms when monitoring, or if they are otherwise not explained. For example, a child with asthma may have a cough, which may not be new.

You can use the self-assessment tool on Yukon.ca to assess yourself and your child for COVID-19: service.yukon.ca/en/covid-19-self-assessment/

Symptoms include:

- Fever/chills
- Cough
- Shortness of breath
- Runny nose
- Sore throat
- Headache
- Loss of sense of taste or smell
- Fatigue
- Loss of appetite
- Nausea and vomiting
- Diarrhea
- Muscle aches

Health officials recommend students get tested for COVID-19 if they are showing symptoms. Students and staff must stay home until they are symptom free, or if tested, until they have a negative test.

Always phone 811 or your family physician before going anywhere to get tested.

If a student or staff gets sick at school

If a student or staff gets sick at school:

- The student or staff will be immediately separated into a designated area
- The student or staff will be provided a mask
- The student's parent/guardian will be contacted to pick them up as soon as possible
- The school staff member who is sick will go home as soon as possible
- The designated area will be thoroughly cleaned and disinfected

Wearing a mask at school

Students and staff are not required to wear masks except in certain situations. They may do so if they choose.

Masks are not recommended for children unless advised by a health care provider. There are specific situations that may require a mask. These include:

- If a student or staff member gets sick at school, they will be asked to wear a mask
- If a school staff has to attend to a sick student, they will be asked to wear a mask
- If a school staff is unable to physically distance during their regular job duties, for example assisting students with activities of daily living, such as washing, using the bathroom, eating, etc.

Our school will have access to non-medical masks to ensure they are accessible when needed.

Physical distancing

The health and safety guidelines indicate physical distancing is not always possible with children. Where not possible, risks are being reduced by increasing other measures like handwashing, cleaning and disinfecting, and making sure students and staff stay home when sick or showing symptoms.

To support safe spacing, manage traffic flows in common areas, and limit mixing of different groups of students, our school is taking the following measures:

- Student desks in classrooms will be arranged to keep students and staff physically distant from one another
- All meetings and assemblies will use larger spaces and reduced group sizes to facilitate physical distancing, using outdoor spaces when appropriate.
- Northern Tutchone Language classes will take place in student classrooms or outside.
- Breakfast and lunch program will be delivered to classrooms, where students will eat their food.
- Hallway traffic will be directed by signage and staff.

Hand washing and sanitizing at school

Students and school staff will be required to wash their hands for 20 seconds with soap and water or sanitize their hands frequently during the school day.

When students should wash their hands	When staff should wash their hands
<ul style="list-style-type: none">• Before and after any transitions within the school setting (e.g. to another classroom, indoor-outdoor transitions)• Whenever hands are visibly dirty• After using the washroom• Before eating and drinking• After sneezing or coughing into hands• After playing outside	<ul style="list-style-type: none">• Before and after any transitions within the school setting (e.g. to another classroom, indoor-outdoor transitions)• Whenever hands are visibly dirty• After using the washroom• Before eating and drinking• After sneezing or coughing into hands• Before handling food or assisting students with eating• After contact with body fluids (i.e., runny noses, spit, vomit, blood)• After cleaning tasks• After removing gloves• After handling garbage

Students and staff will be able to wash hands at available sinks in the school. Hand sanitizing stations will also be located at:

- Main entrance, kindergarten entrance, high school entrance, outside gym doors, outside library doors, and inside the main office.

Cleaning and disinfecting the school

Government of Yukon custodial staff will be cleaning and disinfecting the school with disinfectants approved by Health Canada. They also follow [cleaning and disinfecting guidelines](#) set by Yukon's Chief Medical officer of Health.

High-touch areas and equipment, including shared items for learning will be wiped down and cleaned more frequently.

Staff and students may also take part in support cleaning efforts. Students will be asked to help out by washing their hands, cleaning their desk and cleaning up after using shared items for learning, just like they would usually would.

Supporting safe habits at school

Teachers and school staff will go over these health and safety routines regularly with students. Parents are also encouraged to review these health and safety routines regularly with their child or children. This includes:

- Washing hands with soap and warm water for 20 seconds
- Using hand sanitizer when you can't wash your hands
- Coughing and sneezing into our elbows
- Using a tissue to blow our nose, and then throwing the tissue in the garbage
- Keeping a 2-metre distance from your friends and teachers as much as you can
- Making sure your child or children tells you when they are sick or showing symptoms
- Keeping them home when they are sick or showing symptoms

Operations and schedule during the 2020-21 school year

School start and end times, and recess and lunch

The start and end times for our school day have not changed. Our school day will start at **9:00am** and end at **3:20pm**.

Our recess and lunch breaks will be staggered for different groups of students.

Drop-off and pick-up

Student, parents and school staff should maintain a 2-metre distance during drop-off and pick-up times as much as possible.

Parents should only enter the school when necessary while waiting to drop-off or pick up their child. Otherwise, they should wait in their vehicle or in the designated waiting area. Upon entering the school, visitors will need to sign in at the office.

Water bottles, food and meals

Students are encouraged to bring their own water bottle for the school day to reduce contact at the water fountains.

There will be no sharing of food or drinks between students at the school this year. Any meals available at the school will be served in individual portions or packaged in single-use, food grade packaging.

Visitors and public access to the school

Parents and other guests should limit visiting the school where possible. We understand there may be times where you must visit the school building.

When visiting the school, parents and visitors to the school must:

- Enter through the main entrance and exit through the main entrance
- Sign in at the front office
- Sanitize their hands when entering the school
- Maintain physical distancing while in the school

Programming during the 2020-21 school year

Contacting the school for learning supports

Contact the teacher first if your child needs additional or different supports for their learning.

If you still have concerns with the supports being offered, please contact the school to ensure the school principal is able to follow-up.

The school can be contacted at: 867-537-3231

Learning at school

All students at Eliza Van Bibber School will be able to attend in-class instruction, full-time for five-days a week. During the school day, students will attend their regular classes, while following health and safety guidelines. They will learn the full school curriculum.

Learning at home if a student can't attend school

Students must stay home if they are sick or have symptoms of COVID-19. If a student is unable to attend school, please contact the office as soon as possible. Teachers and parents/ guardians will work together to help students continue with their course work.

If a student is away for an extended period of time, they will be provided their coursework and they will be supported in their learning through:

- Virtual platforms, telephone conferencing, or alternate individualized programming

If you are planning for your child to be away from school for the whole school year, please contact the school principal to discuss options.

School supplies and sharing learning materials

Sharing of school supplies and learning materials will be limited as much as possible. If shared, materials need to be cleaned and disinfected.

To limit sharing, all students are encouraged to have their own school supplies. A list will be sent home to outline the supplies students may need.

Some classes may use some shared learning materials, such as toys, blocks and other materials for learning, but they will be cleaned and disinfected using soap and water or a disinfectant wipe. Students will be asked to wash or sanitize their hands before and after each use.

Paper-based materials like text books, books and paper handouts are okay to use and share as outlined in the health and safety guidelines.

Library and computer use

Our school library will remain accessible for students and staff and we will continue to allow books and other resources to be borrowed from the library.

Students and staff will be able to access IT equipment while following these measures:

- Students will be required to wash or sanitize their hands before and after using computers and other shared IT equipment
- Computers and other shared IT equipment will be cleaned after each use using disinfectant wipes; students and staff may be asked to support this effort

Recess, gym and playing on the playground

Weather permitting, recess breaks and gym classes will take place outdoors. Students and families are asked to ensure they have the proper clothing for playing outdoors.

Playground equipment is okay to use as long as hands are washed before and after going on the equipment.

When gym class is indoors, we will follow the [health and safety guidelines for sport and recreation](#).

School field trips

The health and safety guidelines allow field trips within Yukon and Canada as long as public health and safety guidelines are followed. This includes allowing:

- Outdoor overnight trips if students sleep in their own tent or are only partnered with a family member
- Hotel stays, as long as no more than two students are in each room

Our school will be assessing any planned school field trips on a case-by-case basis and will provide updates to students and parents directly through school year.

International field trips are not currently permitted.

Music and cooking classes

The health and safety guidelines note singing and playing woodwind and brass instruments must not occur at this time. While we are unable to sing or use certain instruments, our school will continue to have a music class.

Cooking classes are also able to continue while meeting the health and safety guidelines, including washing hands before cooking, limiting sharing of equipment and cleaning and disinfecting surfaces between each class.

Music and cooking class teachers will share how they are adapting their programs once the school year gets started.

Extracurricular activities (school sports, music, arts, other programs)

We will be assessing extracurricular activities at the beginning of the school year and determining any changes or adaptations that may be needed.

Any extracurricular activities will follow the same health and safety guidelines for K-12 school settings, and any additional health and safety guidelines that apply, for example, the [health and safety guidelines for sport and recreation](#) for school sports.

Students and parents will be updated as this information becomes available.

For more information:

We will be providing regular updates to students and families during the school year through letters home, and on our school website.
